

Tie dye #2

Pillowcases, sharpies (permanent markers), rubber bands (if wanted), and rubbing alcohol. You will need to slide cardboard inside of the pillowcase so color won't bleed thru if you are not using rubber bands. Pillowcases need to be dry! You can band like tie dye #1 or just doodle on the pillowcase. Drop alcohol on the colors a little at a time and the magic begins. Watch the colors spread. Let dry completely.
